

Sun Insurance Company Limited (SUN)
Statement to the South Pacific South Exchange (SPX)
Dated: Friday, 16th August 2024

Zero Trading Fees on SUN Shares for a limited period

SUN Insurance Company Limited (SUN) announces a special initiative to assist investors by subsidizing the trading fees for trades involving up to 20,000 shares of SUN per Shareholder Identification Number (SIN) during a limited period. This benefit will be available from Monday, 19th August, to Friday, 27th September 2024. The subsidy covers trading fees for multiple trades until the total traded share volume reaches 20,000 shares per SIN during the said period.

The initiative has been introduced in consultation with the SPX to encourage greater participation in the market.

SUN will cover all trading fees and broker commissions directly, meaning neither sellers nor buyers will incur any transaction costs.

This initiative is designed to encourage investor participation and enhance market liquidity, offering a unique opportunity for traders to invest in Sun Insurance shares without incurring any transaction costs during this promotional period.

SUN reserves the right for an earlier closure on this incentive and shall provide a three (3) trading day notice for this closure.

Shareholders can contact their preferred Stockbroking Firm and get more information on this incentive.
